SUBJECT: LOCKPORT -- Land Application and Public Distribution of Sewage Sludge

PERMITTEE TO OPERATE

Mayor and Council
City of Lockport
Central Square
222 E. Ninth Street
Lockport, Illinois 60441

Permit is hereby granted to the above designated permittee to operate water pollution control facilities described as follows:

Application with incorporation of approximately 360 dry tons per year of anaerobically and aerobically digested sewage sludge to agricultural lands at rates not to exceed the agronomic nitrogen demand of the crop grown.

This Operating Permit expires on August 1, 1990.

This Permit is issued subject to the following Special Condition(s). If such Special Condition(s) require(s) additional or revised facilities, satisfactory engineering plan documents must be submitted to this Agency for review and approval for issuance of a Supplemental Permit.

SPECIAL CONDITION 1: Sewage sludge shall not be land applied to sites No. 1, 4, and 3 shown on Exhibit 1 of the application submitted for this permit until a further evaluation of the hydrogeologic characteristics of the soils is completed and the permittee receives approval from this Agency.

SPECIAL CONDITION 2: For the duration of this permit, the permittee shall sample all different sludges being applied to land or publically distributed on a quarterly basis and chemically analyze said samples in accordance with the recommended procedures contained in the latest edition of Standard Methods for the Examination of Water and Wastewater for the following parameters:
